Portfolio [zakkg5.github.io](https://zakkg5.github.io)

Design graduate from NYUST (2025) with work across product, spatial and visual design, and eight months of experience at interior design studios. Designed a personal portfolio website.

## Education

**National Yunlin University of Science and Technology (NYUST)** | B.Des. in Creative Design Jun 2022 - Jun 2025

- Integrated design studios combining brand, product and space in one project, plus hands-on shop work in wood, PE and PU.

## Design Projects

**New Era Traffic System** | Graduation project, team of 3 2025

- Designed the signal body: a lift mechanism and a modular four-part panel that cut cost and let a single crew install, open and replace parts on site.
- Built a live project site with the team to present the system ([cyd2025.framer.website](https://cyd2025.framer.website)).
- Modelled the parts in Rhino, had them 3D printed, sanded them by hand for a week, and finished them with a paint shop.

**Portfolio Website** | [zakkg5.github.io](https://zakkg5.github.io) 2026

- Designed the layout, typography, motion and mobile version. [View portfolio ↗](#)

## Exhibitions & Competition Entries

**Young Designers' Exhibition** | New Era Traffic System, exhibited 2025

**Youth Design Festival** | New Era Traffic System, exhibited 2025

**iF Design Student Award, Red Dot Award: Design Concept** | New Era Traffic System, submitted entry 2025

## Experience

**esdesign Interior Design** | Design Assistant, Taichung Sep 2025 - Jan 2026

- Produced elevations, construction drawings and 3D models for residential renovation projects in AutoCAD and SketchUp.
- Handled site measurement and trade scheduling, and revised drawings with clients and contractors as each project required.

**Sasaki Ken Interior Design** | Design Intern, Taichung Jul 2023 - Sep 2023

- Made presentation decks so clients could compare styles once the base floor plans were set.
- Modelled a building exterior for a client and corrected dimension and layout errors in CAD drawings.
- Organised the studio's material catalogues by brand and year, covering appliances, bathroom fixtures, flooring, wall panels, metals and stone.

## Skills

**Visual** Adobe Illustrator (identity, layout, print), KeyShot (renders, product video)

**3D and drawing** Rhino, SketchUp, AutoCAD, hand sketching

**Web** Website design: layout, typography, motion, mobile

**Languages** Mandarin (native), English (TOEIC 720)

**Other** Military service completed (May 2026)
